I looked into your twilight eyes
I could see through your white lies
So I decided late last night
That it was time for me to die
Don't cry, not that you would cry
No don't cry I wouldn't cry for you
And I was twice bitten but no not shy
I looked into your twilight eyes
You were dead but so was I
And I won't meet you in the sky
What was there to live for?
In this dying world of ours?
So cut me up and eat me raw
But now this is my final hour
Why should I have to live
I have nothing for life to give
That's why I'm going to end it all
and blow my brains over the wall

It's over now I can't live on
But the world will thrive now I am gone
Bridges build no turning back
The future now seems very black
There was no one I could turn to
No one except for you
Now your dead and now your cold
And to the devil my heart is sold
Now I'm dead and soon be burned
I've gone now but I'll return
But when I'm gone and you'll be warned
That hell on earth will soon be done
Don't follow me You'll never find me
I'll be hiding in the abyss
Crying, singing sweet-boy.
