Cursed be those who led their sons to the path of the  
false salvation  
Dreaming of being purified through redemption  
Trusting in lies that blinds their minds with idolatry and  
misconception  
Lies will lead them all to self-destruction

Servants bow your heads and obey to the church  
Prayers waiting for the judgement  
Observants, unveil the layer of falsity to see an uneasy  
Truth there's no god to worship fuck it  
Preachers, of the mystery of the holy ghost  
Bullshits, hidden by confessions  
Sinners, you will wash your dirty hands in your own  
flowing  
Blood, atheistic light, no religion

Decimation of millions, indoctrinations of terror  
Under the flags of the nations, under the scriptures of  
the ancients  
Running to the dark oblivion, desolation of our souls  
Waiting for the revelation, licking the honey of the false  
Condemnation by the guides, no more Christ to  
sacrifice  
A new reaction will delete, every single soldier of the  
church  
Victim of the fear of god, our will's under your control  
Every century has it's cancer, every generation has it's  
enemies  
Every belief will kill us, every divinity is laughing  
For the interests of a few tyrants, people will face their  
last journey  
Wrong ideologies will guide us towards a catastrophic  
scenery  
A new beginning is coming now, always starts with the  
end  
The end of everything

No one will be missed by the fury of this massive  
mutilation  
Flesh we are and flesh we'll be in putrefaction  
They hold the free will with the lie of the saviour

crucifixion  
Lies will lead them all to final self-destruction

No recovering and no morphine can heal this society, a  
new army will come to reset their life  
Reconstruct the morality of these injured minds, a new  
war will erase all these fucking lies

Cries, world is collapsing, men are defeated, fed up by  
anger and hate  
Nothing remains only ashes, prayers are so useless to  
say  
Ceremonials of destruction, sermons of death and  
despair  
Bleeding remains of the west and east cultures now rot

Servants bow your heads and obey to the church  
Prayers waiting for the judgement  
Observants, unveil the layer of falsity to see an uneasy  
Truth there's no god to worship fuck it  
Preachers, of the mystery of the holy ghost  
Bullshits, hidden by confessions  
Sinners, you will wash your dirty hands in your own  
flowing  
Blood, atheistic light

Cursed be those who led their sons to the path of the  
false salvation  
Mind distortion by the greatest hallucination  
Trusting in lies that blinds their minds with idolatry and  
misconception  
Lies will lead them all to self-destruction
