I don't need a needle for the junk that I'm  
Using, it's black blood and I need a transfusion. Wide  
eyed fucking  
Awake, no time for sleep. No fucking excuses, no not  
for me. Black blood  
Is the only way. Cause the night is young and I hope it  
never ends,  
Cause I lost two friends and my heart will never mend.  
Though the pain  
Is real I'll find the strength within. Though the night  
must end another  
Will begin. I won't be the one to go down with the night,  
it's black  
Blood, yeah it keeps me alive. Pour it on me
