Visit "[Almost Like Life](#)" on [MotoLyrics.com](#)

Since you've gone I cant see clear  
Everything just turns to gray  
Burning the surface of our plants?  
Catch the wind and sail away  
Im living in slow motion now  
Going through the motions everyday  
So im staying in the day dreams  
That are never gonna come true  
Its almost like life except for you  
Im never gonna move along  
Living here without you  
Its almost like life except for you  
I knew you deserve so much more  
Better than this hell ive made  
If i could live it down again  
Id trade it all in for your kiss  
What have I done?  
How can I live?

Never get you back  
What have I done?  
How can...  
I'll just stay watch you go down  
Im on a sinking ship without you  
Its almost like life except for you  
And im going to the wrong place  
But they wont feel the same without you  
Its almost like life except for you  
Oh, You'll be my sweet insanity  
Say you'll be my sweet insanity  
Cause the world is gonna spin on  
But im motionless without you  
Its almost like life except for you  
Every single thing that ive changed  
But I still feel the same about you  
Its almost like life except for you
