In here I'm pulling away
I can't feel your hands on my face
Right here from distance so great
It's all fading away

Memories and lies
Keeping me blind
It's how you bled me dry
Of these memories and lies

I keep it buried away
For you, it's all erased

Memories and lies
Keeping me blind
It's how you hung me high again
Memories and lies

Memories and lies
Keeping me blind
It's how you left me dry
Of these memories and lies

Memories and lies
Keeping me blind
It's how you hung me high again
Memories and lies
