Verse:

Sitting in waiting. Im lying there.
I feel your fingers are bringing this gun to my head.
All my cells are changing, changing in me.
Its just like everything I ever hoped it would be.

Chorus:

I can feel you under my skin,
Its all black you put me here.
I can feel you under my skin all the time.

Verse:

Now Ive awakened, new life flows through me.
Its seems Im becoming a perfect bloodletting machine.
And inside this madness, it all looks so clear.
The sound of my voice is the last thing that youll ever hear.

Chorus:

I can feel you under my skin.
Its all black you put me here.
I can feel you under my skin all the time.
you sucked out the light
I can feel you under my skin.
Its all black you put me here.
I can feel you under my skin all the time.
Ill feed by your side

Bridge:

Kill, feed, want, waste, bleed.
nothing but useless meat.
Taste, feel, take, need.
hate what its done to me
