Whats happened to me? Everything falls through.  
This can't be real. I can't tell no more.  
Please help me I'm falling. Falling under again.  
Feels like I'm drowning inside.  
And this is my life.  
It's over again. Please come to my rescue.  
And everything is breaking down I know.  
Please help me I'm falling. Falling under again.

Feels like I'm drowning inside.  
And this is my life.  
It's all falling down. It's all coming down.  
Look around it's all falling down it's all breaking down  
What I've found were all falling down, were all melting  
down.  
It's all over. I still need it. It's all over
