Wake the dead
Serial sleepers slay with words instead
Sleep with the light on
Keep the loneliness away
I feel the darkness anyway
And i reach for the doorknob
Wake the dead
Serial sleepers slay with words instead
Ooh
Rise up oh sons of God

And sing the song that hides behind your teeth
These ears have longed to hear
All night long waiting for
Save our souls before all our dreams come true
Wake the dead
Serial sleeps slay with words instead
All gone
