Everybody's got something to say  
About the state of the world today  
After a while, you just get used to it  
I need somethin' to get me through it  
You won't see it, you won't find it at all  
I was in New York not that long ago  
Stood and watched while the blood ran cold  
After a while, you just get used to it  
I need somethin' to get me through it  
You won't see it, you won't find it at all

I joined the army, the infantry  
Felt that lead goin' right through me  
After a while  
After a while  
You won't see it, you won't find it  
You won't see it, you won't find it  
You won't see it, you won't find it at all
