Technopop

On some lonely motorway
I was forced to spend the day
Services, I stopped the car
Restaurant and in the bar
I lie right back and turn the radio on

Now for major surgery
I'll be you and you be me
Wonder what was in her mind
Was I really so unkind?
I lie right back and turn the radio on

Technopop

Technopop

Can we settle out of court
Loyalty can not be brought
Effortlessly changing gear
May this will all end here
I lie right back and turn the radio on
