Seems like every time I try to hide
You pull me up
And give me a reason to try
There's no one to fight for this truth

Rise and shine
To a new day
Overlooking the peril of power on the streets
But the pain won't be constant
No, the pain won't last
This power, a new philosophy
Once forgotten is now a commodity
No, the pain of this hatred won't last
(Will not last)

This is a new love rising
This is a new love rising

Now it seems like every time I try to hide
You pull me up
And give me a reason to try
There's no one to fight for this truth
So rise and shine

Bring in your squad of soldiers
To barricade the door
Afraid of the outcome
Afraid of the speakers of love

Break down the door
Break down the door

This is a new love rising
This is a new love rising
Praise the victor on a glorious day
One man is weak
But men bonded are strong

Now it seems like every time I try to hide
You pull me up
And give me a reason to try

(There's no one to fight for this truth)
What will I say to convince you?
(There's no one to fight for this truth)
That the strength of the wolf is the pack
(There's no one to fight for this truth)
And the strength of the wolf is the pack
(So rise and shine)
Yeah it is

Rise and shine, young victors
Rise and shine
Rise and shine
