I swear I'm coming for you, I'm coming to prove  
that I am stronger and faster than you could ever  
imagine  
You knew this would happen  
But still you chose to do just what they told you to do  
And now I'm coming for you to leave you black and  
blue  
I swear I'll show you something new  
I'm gonna do what I have to do to you

You best not catch me in the street  
You best not come at me or you're beat  
To this day you can't see me  
You best not catch me in the street  
If you fucking come at me you're beat  
To this day you can't see me

I swear I'm coming for you, I'm coming to prove  
I swear I'm coming for you, I'm coming to prove

I'll bend and bend 'til you break, while making up for  
lost time  
Go put some glasses on, so you can find your lost mind  
I don't care what you think, I just hope that I get to see  
your whole ship sink  
And while you're drowning and gasping for air  
You'll meet the sole of my shoe with the top of your  
head

You best not catch me in the street  
You best not come at me or you're beat  
To this day you can't see me  
You best not catch me in the street  
If you fucking come at me you're beat  
To this day you can't see me

We trusted you to hold us up, but you let us down  
We trusted you to hold us up, and you let us down  
We trusted you to hold us up, but you let us down

You best not catch me in the street

You best not come at me or you're beat  
To this day you can't see me  
You best not catch me in the street  
If you fucking come at me you're beat  
To this day you can't see me
