Green screen me onto movie scenes
And the blurry picture turns from grey.
Save me from an eternity
Of wishing I never went away.
How can you watch my back as I'm leaving?
I can't get on this plane, it's just so wrong.
The weekend's been nothing but deceiving but it's all
we've had...

So goodbye
I can't leave you lonely anymore
Cause I know
Next time I do you'll just move on

So goodbye
I can't leave you lonely anymore
Cause I know
Next time I do you'll just move on

I've got a tiny little secret,
Something so far-fetched,
That you may not have known about me.
I control the sun and all the elements
I'll dry out the ocean just to be
Able to walk right up to your front door
as you open it up I'll pull you close
My breath is lost, this isn't folklore,
but it's all we have my darling...

So goodbye
I can't leave you lonely anymore
Cause I know
Next time I do you'll just move on

So goodbye
I can't leave you lonely anymore
Cause I know
Next time I do you'll just move on

Can you remember the day you held my hand on the
ocean floor?

Please don't forget to remember I'll be coming back for more.

Can you remember the day you held my hand on the ocean floor?
Please don't forget to remember I'll be coming back for more.

So goodbye
I can't leave you lonely anymore
Cause I know
Next time I do you'll just move on

So I'll try
To imagine you right next to me
But I know
I'll try so hard and you're still gone.

So goodbye
Next time I do you'll just move on...
