

How To Destroy Angels "On The Wing"

Visit "[On The Wing](#)" on MotoLyrics.com

We've grown
Should've known
All alone
We wake

Single file
Remembering how
And all the while
We wait

I hear the warnings on the wing
I don't believe in anything

Kept inside
Afraid to rise
Foolish pride
We wait

Off the trail
We eat our tails
I can't fail
I wait
And wait
And wait

I hear the warnings on the wing
I don't believe in anything
I hear the voices rise and sing
But I don't believe in anything

Used to
Believe in you
Yet all we do
Is wait
