In disarray  
We lose our way  
We fade away  
We fade away  
We decimate  
Eradicate  
We fade away  
We fade away  
We eat your hate  
Reciprocate  
We fade away  
We fade away  
We hesitate  
We complicate  
We fade away  
We fade away  
We fade away  
We separate  
We isolate  
We fade away  
We fade away  
We fade away  
The pills we take  
A shade of grey  
We fade away  
We fade away

We fade away  
We fade away

Please I need a little room to breathe  
Please I need a little room to breathe  
Please I need a little room to breathe  
Please I need a little room to breathe

Breathe, breathe, breathe  
Breathe, breathe, breathe  
Breathe, breathe, breathe  
Breathe, breathe, breathe

Am I just talking to myself?

Am I just talking to myself?

Am I just talking to myself? Am I just talking to myself?  
Am I just talking to myself? Am I just talking to myself?  
Am I just talking to myself? Am I just talking to myself?  
Am I just talking to myself? Am I just talking to myself?

We take the bait  
We cannot wait  
We fade away  
We fade away  
You ask for great  
Exaggerate  
We fade away  
We fade away  
Obliterate  
Intoxicate  
We fade away  
We fade away  
He used to pray  
We can't obey  
We fade away  
We fade away  
We see the fate  
Has lost it's way  
We fade away  
We fade away  
We had to take  
We lost it's way  
We fade away  
We fade away

We have to say  
We lost our way  
We fade away  
We fade away  
We have to say  
We lost our way  
We fade away  
We fade away

Please I need a little room to breathe  
Please I need a little room to breathe  
Please I need a little room to breathe  
Breathe
