Who am I
23 and it's all a lie
Thought I knew who I was
I thought that You were here with me

But this darkness is breaking
Everything in me
These infinite questions
Have shattered all the peace

But I won't question in the dark
What is true out in the light
I will follow after You
Through the sun and through the night

Cause You've got me
Right where You want me
Yeah You've got me
Right where I need to be
And I'm standing amazed

Where did it go
33 and it's gone so fast
Thought I knew who I was
I thought that You were leading me

But this depression is
Crashing in on me
And I'm not half the man
I hoped I'd be

But I won't question in the dark
What is true out in the light
I will follow after You
Through the storm and through the fight

Cause You've got me
Right where You want me
Yeah You've got me
Right where I need to be
And I'm standing amazed

But I won't question in the dark
What is true out in the light
I will follow after You
Through the storm and through the fight

Cause You've got me
Right where You want me
Yeah You've got me
Right where I need to be
And I'm standing amazed

You've got me right where I want to be
You've got me right where I need to be
And I'm standing amazed
