"Breathe"

Visit "[Breathe](#)" on MotoLyrics.com

People say that I'm a dreamer
With my head up in the clouds
But I'm not gonna let it fade away
It's too far to go back now

PRE-CHORUS

You could say that I am crazy
You could say that I'm not right (might die)
You could say I'll lose it all
But all I'm gonna do is...

CHORUS

Breathe it in and breathe it out
I can breathe Your light and there is no dark
And the breath I breathe is a gift from You
So I'll dream my way from the clouds back home to You

So hard to see it coming
When you're not looking down
And the world will never see a frown on your face
But they would love to see you drown

PRE-CHORUS & CHORUS

Yeah, I'm breathing it in.

CHORUS 3x
