I'm moving sideways to move forward
Another crevice in the road
Yeah and you see me walkin alone
And you need me I'm right here I am
And I don't have to run but still I fall
And we run, no we don't know where we're going
And we hide, pray that you will look inside and see our hearts
Tear me down just to build me back again
I never was the best in this life
I never had all the answers
And you see me walkin along
And you need me right here I am
And I don't have to crawl but still I fall
And we run, no we don't know where we're going
And we hide, pray that you will look inside and see our hearts
Tear me down just to build me up again
Yeah and all that we could want is to be just like you
Yeah and all that we could need is, is only you
And we run, no we don't know where we're going
And we hide, pray that you will look inside and see our hearts
And we run, no we don't know where we're going
And we hide, pray that you will look inside and see our hearts
Tear me down
And we run, no we don't know where we're going
And we hide, pray that you will look inside and see our heart
Tear me down just to build me up again
