In this world where people are fighting with each other
Nobody to count on, not even your own brother
So, if someone comes along who gives you genuine
love and affection
Get it while you can, get it while you can
Get it while you can, don't you turn your back on love

When you love somebody, you're taking a chance on
sorrow
But who knows, baby, we may not be here tomorrow
So, if someone comes your way with love and
protection
Get it while you can, get it while you can
Get it while you can, don't you turn your back on love

I want to tell you a little bit about myself
Once I had a good woman, but I didn't count my
blessings
Oh, I wish she could hear me, I've learned a bit of
lessons
So, if someone brings you love, don't throw it away like
I did
Get it while you can, better go on and get it while you
can
Get it while you can, babe, don't you turn your back on
love
Get it while you can, ooh, get it while you can
Better go on and get it while you can
