Control. Release. Panic to grief. The same song is sung  
but feels wrong to me  
Closed lanes upon this night bring light to how I feel  
about you now

Don't lose it now. Present your world to me  
Don't lose it now. Present your world to me

Control. Release. Results are all I ask of you this time  
Cause this time is here so take a glance outside, you  
are the last in line to choose

Don't lose it now. Present your world to me  
Don't lose it now. Present your world to me

Control. Release. Panic to grief. The same song is sung  
but feels wrong to me  
Closed lanes upon this night bring light to how I feel  
about us now

Don't lose it now. Present your world to me  
Don't lose it now. Present your world to me  
Don't lose it now. Present your world to me  
Don't lose it now. Present your world to me
