Do worse things always want to happen when I'm not
With you? I don't want to suffer this world all alone.
I'm trying to think of something to say,
I forever think of the wrong things to say.
We're never thinking of something to say.

Now I'll wait alone for you,
I'll make a fool of me to you.

But we're still here, (We won't budge, no.)
Don't waste your time with me. So...
I'll still be here, (We won't budge, no.)
Don't waste your time with me. So...

You made it look like I have a chance when you know
That I don't, now you won't help me stop feeling all
alone.
I'm trying to think of something to say,
I forever think of the wrong things to say.
We're never thinking of something to say.

Now I'll wait alone for you,
I'll make a fool of me to you.

But we're still here, (We won't budge, no.)
Don't waste your time with me. So...
I'll still be here, (We won't budge, no.)
Don't waste your time with me. So...

But we're still here,
Don't waste your time with me. So...
I'll still be here,
Don't waste your time with me. So...
