Does this explain the way you've changed your mind?

Oh.

I feel ashamed, a shadow of myself, yeah.

Don't slip away, don't slip away. Don't slip away.

For letting us forget about ourselves.

I've had enough of letting my feet grow.

Don't slip away, don't slip away. Don't slip away.

A world away, is all it takes to free this

Feeling of pain, as it takes me further from you now.

A half time break, we'll argue over something,

Will nothing change? The same pieces won't fit. Oh.

Don't slip away, don't slip away. Don't slip away.

A world away, is all it takes to free this

Feeling of pain, as it takes me further from you now.

A world away, is all it takes to free this

Feeling of pain, as it takes me further from you,

Takes me further from you, takes me further from you

now.
