When the morning came, I was up before first light  
And your bed was made, you must'a cut out sometime  
last night  
My heart beat started pounding out riddle in my brain  
Voice from deep inside said "you've got to be insane"  
Everyone knows how this old story goes  
So, I got in that taxi... drank my conscience away

If you're gonna be there, be there  
If you're gonna stay, stay tonight  
Start livin, out with the old, I'm on the up  
Must be the good life

I went to your friends house, begged you to open the  
door  
With your hands on your hips, you spoke while I sat  
down on that floor  
Two dishes in the kitchen sink, the way you treat me  
when you drink  
Don't look so superior when you give your opinion  
Don't think I don't know how you act on your own  
And just who are those names on your cell phone  
anyway?

If you're gonna be there, be there  
If you're gonna stay, stay tonight  
Start livin, out with the old, I'm on the up  
Must be the good life,

You're a cool breeze in the setting sun  
New Year's, the 4th, wrapped into one  
You make me want to be someone that you could look  
up to

If you're gonna be there, be there  
If you're gonna stay, stay tonight  
Start livin, out with the old, I'm on the up  
Must be the good life

Come on get love  
Come on and try

Come on now, what are you waiting for?  
(Repeat 4x)

When the morning came, I was up before first light
