It's the perfect time of day
It's the last day of your life
Don't let it drift away
While your heart is still racing
It's the perfect time of day

And you won't feel a thing
And you won't recall
Anything at all

Close your eyes and take your last breath
Rest your head aside
The end is the beginning and every point between
Some are lost, oh some are lost

And you won't feel a thing
And you won't recall
Anything at all

Let your colors collide
Oh, the time is so fleeting
I'll quit running behind
Oh I know your meaning

You love to fall
But why you wanna say?
That you love to fall
The perfect time of day

And you won't feel a thing
And you won't recall
Anything at all, now

It's the perfect time of day
It's the perfect time of day
Come on now, come on now, come on

It's the perfect time of day
Come on now, come on now, come on
It's the perfect time with you

Come on now, come on now, come on

Come on with you
Come on now, come on now
Yeah all y'all, come on
