They call me the howlin' wolf now, and you found me  
howlin' at your door  
They call me the howlin' wolf now, baby, and you know  
you found me howlin' at your door  
You know I love you darling, don't drive the wolf from  
your door  
(Lord have mercy, darling)  
If God forgive me, I won't let you make me howl no  
more  
If God forgive me, I won't let you make me howl no  
more

You want me to do like a wolf baby, drag my tracks out  
in the cold  
Now Christmas eve is coming, and you want me down  
on my bended knees  
Now Christmas eve is coming darling, and you want the  
wolf on his bended knees  
You made me get your shoe, darling you wanna drive  
poor me
