### "Who Will Be Next"

Who will you hurt next, how will you start  
Who'd be the next one, baby you tear apart

Blessed be your heart, cursed be your name  
Blessed be your heart, cursed be your name  
Who'd be the next one darlin', that you'd put to shame?

Will it be the one, give you his gold  
Or will it be the young one, take all you hope  
Babe I'll forget my pride, just to keep you by my side

Cheat if you want to darlin', treat me unkind  
Cheat if you want to darlin', treat me unkind  
Come back and love me, when you can find a little time
