

Howling Bells

"Baby Blue"

Visit "[Baby Blue](#)" on MotoLyrics.com

I've been seeing a vision within
It's under my skin
Baby blue

Of searching the skies late at night
I'm close to your light
Baby blue

You're so far, my star
You're the farthest star
In this fire, I can't see myself, I'm under your spell
Baby blue

Everybody takes care for them selves
Don't want to no-one else
Baby blue

You're so far, my star
You're the farthest star
Wont you shine down on me
Coz tonight I need your light baby
