Grasper you better run.
Grasper you better stay.
And I got it too much I thought
It's all ok
Grasper you shouldn't stay.

Wouldn't want to, at least not without you.
Wouldn't want to.
Wouldn't want to, just wouldn't want to.
Wouldn't want to.

Grasper you better run.
Grasper you better stay.
And I got it too much..I thought
It's all ok.
Grasper you better stay.

Wouldn't want to, at least not without you.
Wouldn't want to do that.
Wouldn't want to, just not a way to word.

And all my life I have been waiting so long
For you to be there with me
And i know one day we can be as one
They used to tell me that i'll dream forever.
And I'll always stay on top of things
They used to tell me that i'll dream forever.
Whore, Are we moving too slow?
Tangerine.

Grasper you better pray.
Grasper your better stay.
And I got it too much, I got it all
O.K?
Grasper, you better stay.
