How long, how long  
Before I'll need to know

How long, how long  
Before I'll need to go

When morning came  
I knew that I was sure, sure  
Stepped out of my mind  
I saw that I was right

How long, how long  
Before I'll let you go

How long, how long  
Before I'll never show

Am I blind  
Or is that too much light  
How do I walk this alone  
Do I fight myself

How long, how long  
Before I'll need to know

How long, how long  
Before I'll let you go

Before I'll never show
