Let's be kids again
Life was so simple then
Let's be kids again, again

We don't wanna know about this currency
We don't wanna know about this 9 till 5
Just a simple life, can you picture this, yeah

We don't wanna hear about your policies
We don't wanna live up to these expectations
A child like dream, yeah, you know what I mean, yeah

Let's be kids again
Life was so simple then
Let's be kids again, again

Everyone's gotta reason to be free
Everybody wants a lifetime just to be
A child like dream, yeah, you know what I mean, yeah

Let's be kids again
Life was so simple then
Let's be kids again, again

Somebody told me, don't ever look back
Just look to the future, well, I can do that
But just for a moment I wanna be free
To dream how I used to dream we could be

Let's be kids again
Life was so simple then
Let's be kids again, again

Let's be kids again
Life was so simple then
Let's be kids again, again
