Who you fucking now?
I use my slit wrist
To sign my name with blood
And when you can't compete with the Joneses
Gun 'em all down
(even the father).
You fucking whore.
Shut up and swallow my pride for me, go.
Move closer or drive farther.
So why don't you suck on the end of this dick that cums
lead,
But first I'm coming after you all!

It's ladies night at the bar
But she smokes a man's cigar.
I guess she's dying.
Oh well. pfft
I don't give a fuck about your dignity.
That's the bastard in me.

I know a girl
Who sells herself around
And I'm sure that one day
She'll sign autographs in your town.

You fucking whore who you fucking now?
You fucking...

Shut up and swallow my pride and go
Move closer or drive farther.
So why don't you suck on the end of this dick that cums
lead,
But first I'm coming after you all!

Looking back into my diary
What makes me say those things?
What causes my laughter at another's disaster
It's the bastard in me.

You fucking whore!

I know a girl
Who sells herself around
And I'm sure that one day
She'll sign autographs in your town.
I know a girl
Who sells herself around
And I'm sure that one day
She'll sign autographs in your town.

Who you fucking now, you fucking in this shit
You mean shit to me you mean shit
You eat shit, you fucking whore!

I strain myself i guess i guess
I fuck myself i guess i guess
I mean it fucking whore!
You live in shit
And you will eat your own way out.
Everynight
I am too fly and shy
Too fly and I like no other guy.
Too fly and shy just for you.
Im too fly and shy and I'm like no other guy
I'm too fly and shy just for you
And I'll mark you all!!!!

I know a girl who sells herself around
And im sure that one day she'll sign autographs in your
town
I know a girl who sells herself around
And im sure that one day she'll sign autographs in your
town

Who you fucking now?
You fucking eat shit, you filthy shit
Who you fucking now!?!
Who you fucking now!!!!
