What makes you happy all the time?
Makes you wonder if it's right?
What gives you strength all the time
All the time?

What wears you out when you're tired?
Holds your hand and in the night
What gives you strength all the time
All the time?

To cry doesn't make it any easier
To laugh doesn't always feel right
It's time, time makes it all harder
Oh, when will I?

What makes you happy all the time?
Makes you wonder if it's right?
What gives you strength all the time
All the time?

To cry doesn't make it any easier
To laugh doesn't always feel right
It's time, time makes it all harder
Oh, when will I?

What makes you happy all the time?
