Stand there and pull the lever.  
Believing that's love.  
You work the big machine belief fuel my fire and then...  
I'm in love,  
I lied,  
I'm in love I lied.  
And here's my story.  
I stood there,  
Pulled the lever,  
Believing that's love.  
I lied.  
I work the big machine and with you.  
I fuel the fire.  
Your stories...  
I fuel the fire.  
It's all love.  
And it's okay.

You're blind,  
To what she has lied to you about.  
To your knees.  
Pleasure for one.  
But she just teased you.  
Buried eyes.  
In the flow of sour emotion.  
No one else can feel what I hide inside

Loving you.  
If I can't have you no one will.  
Love you.  
And for your love I would kill.

I thought I loved.  
I gave my all to you.  
But you led me like a fool.  
Like a fool, and I..  
So many ways...  
So many ways that I cant..  
I cannot count the ways  
Watch out.  
Silent death will come over you.

You won't realize,  
What the fuck that I have done to you.  
Can't reach your fucking next course..  
As I indulge myself on your mindless corpse.

I love you.  
I love you.  
And if I can't have you no one will.  
Love you.  
And for your love I would kill.

I love you.

I gave my all to you.  
But you led me like a fool.  
(Uncool)  
So many ways.  
Here's my story.

Oh my God..  
What I thought was wrong..  
Love. Love is wrong.  
..  
I got you face down.  
You're sounding you're cool?  
We're alone.  
AND it's love.  
I take your body for..  
A screwdriver..  
A powertool.  
Fucking you, fucking your dead body.  
But it's all OK, because I love you.
