### "The Faith"

I know we get caught up  
I know we all get down  
Some days the universe seems anything but round  
I hear you ask forgiveness  
I hear you ask for peace  
All I ever ask, is that you keep on loving me  
Love is the answer  
Just keep your faith in me  
Love is the reason  
It's all you'll ever need  
Sometimes the air gets heavy  
It gets so hard to breathe  
When everything gets too dark, too dark to see  
Some of us like to pray  
Some of us feel ashamed  
Sometimes we don't feel anything  
But I feel today
