

Howling Syn "Emperors Of Tomorrow"

Visit "[Emperors Of Tomorrow](#)" on MotoLyrics.com

You hail and rise for the emperor of the nation
Full of lies: sins of illusion
Defend your life against all intrusion
You hail and rise for your emperor
Get ready for your new life
The battles & the damage done
You'll end your life for your emperor

Time has not changed
Even now in our time
Everyone fights to be emperor
Just follow the quick steps to become modern
Then you'll play the puppet emperor
Trust is a instinct-word since the earth was born
You'll play the first role in our future

The emperors of tomorrow
