That hate is in my head  
That hate is in my mind  
All I see is darkened by your shadow  
You're a friend in sorrow

That hate is my poison  
That hate is my anger  
All my joy is pain  
All my joy is pain!

[Chorus:]  
Hypnotize me and let me dream in the lostlands  
Follow me through the path of despair  
Don't try to escape from the mirror that faces you  
For eternity, the hate will grow in you

That hate is in my veins  
That hate is in my soul  
Does it care when I lose my head?  
Does it smile when I'm in pain?

That hate is my passion  
That hate is my power  
All my smiles are stitched  
All my smiles are stitched!

[Chorus]

The hate will grow in you!

I see my face in the mirror  
I see my shadow on the wall  
Am I crazy? Am I lazy? Am I stupid?  
Am I wrong? Am I right?
