I can't get that sound you make out of my head
I can't even figure out what's making it
no one else around even seems to be noticing
it's only small enough for me

I can't get that sound you make out of my head
I can't even figure out what's making it
it feels like fingernails across the moon
or do you rub your wings together
there's a mean bone in my body
it's connected to the problems that I won't take for an
answer
and I won't take that from you / because I'd / hurt a fly

let you go to sleep /feeling bad as me / let you go to
sleep
feeling bad / there's a mean bone in my body /
it's connected to the problems that I won't take for an
answer
and I won't take that from you / because I'd / hurt a fly
