Come on, break it up
It's gone on long enough
Well, has it changed for you?
Well, has it changed for you?

The tubes tag along
The radar's got it wrong
What hasn't changed for you?
What hasn't changed for you?

Can you wait for the sidewalk?
Waiting for you
Can you wait for the sidewalk?
Can it wait for you?

Can you wait for the sidewalk?
Can it wait for you?
Can you wait for the sidewalk?
Can it wait for you?

Come on, break it up
It's gone on long enough
Well, has it changed for you?
Well, has it changed for you?

The tubes tag along
The radar's got it wrong
What hasn't changed for you?
What hasn't changed for you?

Can you wait for the sidewalk?
Waiting for you
Can you wait for the sidewalk?
Can it wait for you?

Can you wait for the sidewalk?
Can it wait for you?
Can you wait for the sidewalk?
Can it wait for you?
