Came into the darkness from out of the blue  
I don't know much but I know what to do  
Froze in my mind, I believed it so long  
Alright, I'll admit I was wrong

Stay out of my nightmares, stay out of my dreams  
You're not even welcome in my memories  
And things are alright and I want what I've got  
It's only momentarily thought

Fade out, fade out  
Fade out, fade out  
Fade out, fade out  
Fade out, fade out

If no one thinks of no one  
Then no one believes in no one  
And no one fucks with no one  
Then no one's afraid of no one

We've all seen enough, now it's time to decide  
The meekness of love or the power of pride  
It doesn't matter if you're good or smart  
Goddamn it, things fall apart

Let's go for a walk, yeah, let's go for a drive  
Don't know how to say thanks for being alive  
Let's go for a lifetime, let's go for a fling  
Don't know how to say anything
