Well, last month came and went and I
Didn't pay the rent, well now
That was pretty silly I guess
But that's how much I love you baby
More or less

Well the lights went out before, now they
Up and locked the door, well I
Guess you really put me to the test
But that's how much I love you baby
More or less

Well, how could you be so cool
To sit and watch me play the fool?
And pick up all the tabs for all your fun
Well, I bought your brand new clothes
And Heaven only knows
That all the time I thought that I was number one

Well, I saw Fred yesterday, he said he
Saw you in LA, well I
Hope the weather's groovy there out west
But that's how much you love me baby
More or less

Well, how could you be so cool
To sit and watch me play the fool?
And pick up all the tabs for all your fun
Well, I bought your brand new clothes
And Heaven only knows
That all the time I thought that I was number one

Well, I saw Fred yesterday, he said he
Saw you in LA, well I
Hope the weather's groovy there out west
But that's how much you love me baby
More or less
More or less
More or less
