"The Time Machine"

Visit "[The Time Machine](#)" on MotoLyrics.com

Ride upon the time machine
It only costs a dime, it's clean
Step inside, sit down and let it happen

Yes sir

Don't be outside looking in
You might not get the chance again
You'll feel fine as soon as you're strapped in
It's really keen
23-skidoo
You're on the one and only homemade time machine

Flashing lights excite ascension
Whirl, twirl, swirl
Fifth dimension

If you take a trip tonight
Focus in on the flashing lights
We're sure you'll enjoy this new sensation
A voo-dee do
Take a step right through the door
When it's done you'll ask for more
In just a flash you'll know where you have been
It's really keen
You're in a dream
You're on the one and only home made time machine
You're on the one and only home made time machine
You're on the one and only home made time machine
