Can you imagine
What would happen
If we could have any dream
I wish this moment
Was ours to own it
And that it would never leave

Then I would thank that star
That made our wish come true
Cuz he knows that where we are
Is where I should be too

Right here
Right now
I'm looking at you
And my heart loves the view
Cuz you mean everything

Right here
I'll promise you somehow
That tomorrow can wait
For some other day to be
But right now
There's you and me

If this was forever
What could be better
We already proved it was
But in 2123
Hours abandon the universe
Gonna make you everything
In our whole world change

And you know that where we are
Will never be the same

Right here
Right now
I'm looking at you
And my heart loves the view
Cuz you mean everything

Right here
I'll promise you somehow
That tomorrow can wait
For some other day to be
But right now
There's you and me

Oh we know it's coming
And it's coming fast
So let's make this second last
Make it last

Right here
Right now
I'm looking at you
And my heart loves the view
Cuz you mean everything

Right here
I'll promise you somehow
That tomorrow can wait
For some other day to be
But right now
There's you and me

Right here
I'll promise you somehow
That tomorrow can wait
For some other day to be
But right now
There's you and me
