Ask me proceed to give you what you need

I hope you're not tryin to mislead me Miss Johnson
I'm really diggin' you I hope you feeling me Miss
Johnson

And when I get it I'ma hit it get it
And when I get it I'ma hit it get it
And when I get it I'ma hit it get it

Lane in the bed she getting ready in the bathroom
Baby got a perfect figure like the cartoon
Call her... two big... I like sticking on her lips like a
couple juice
Playin in the mirror asking what I'm looking at
She got sexy pennies on and got halla ass
I can handle that she like it when I say never mind
How I tell her I can sing...
You look so good, you look so fine
That I wanna work that, work that all through the night
yeah.

Chorus:

I hope you're not tryin to mislead me Miss Johnson
I'm really diggin' you I hope you feeling me Miss
Johnson

And when I get it I'ma hit it get it
And when I get it I'ma hit it get it
And when I get it I'ma hit it get it

... with the phone back she put it on and let me take that
Take that, take that when she come she do the holla
shake things
P**sy good make a nigga wanna break dance
Never think... nigga wanna make plans
Girl you do that baby if that ever was I wondered you
Well I'm that crazy for that straight jacket love it
... when I'm inside I love it
I hope this never change and your feelings stay the
same
I really think your body... put your brain

Chorus:

I hope you're not tryin to mislead me Miss Johnson
I'm really diggin' you I hope you feeling me Miss
Johnson
And when I get it I'ma hit it get it
And when I get it I'ma hit it get it
And when I get it I'ma hit it get it

It seems love gonna love anymore
And new pussy keep knock me at my door
And she never in the mood like she used to
Maybe she... got a new boo
Now she acting brand new like I knew she would
... yes all good
I wanna let her go I don't think I could
I don't think I could, I wanna let her go, I don't think I
could
And everytime I ask I wanna let her go I don't think I
could

[Chorus:]

We're gonna see some things... real cause
Some real caughths

Go and I get it get it I'ma get it get it
