Verse One

But first of all i thanks god for a better day
getting money no drugs found a better way
No more shootin and fighting. posed in alley ways
Running from cops throwing rocks in gang ways
Remember getting monkey wrenches and turning
Hyrdens on anytime of the day killers turn into fire
zones
Couldnt make it thru the hood wit out it going down

i sit and wonder if i was still there what would i be
if i was still watchin da loot news what would i see
another hom-sucide another robbery
but Huey made It out now aint no stopin me
I kno theres niggas hatin on me it aint nothing new
i let my big ass rims giving something to do
third eye watching my back cuz niggas poppin it
It feels good to be alive but still it got me..

Chorus

Sitting on my cadilac wishing everything was still good
at home
Even tho i kno its not otherwise i wouldnt be gone
I can admit that im glad that i got away from the sad
things
everything that can make a nigga mad mane
I gotta say man it feel good to be alive
