I'm from the otherside of town

I'm from the otherside of town

I'm from the city that's most hated on
I mean from the city where them niggas get their hate
on
I slap down falls I'm getting my lake on
but check my bed on 2012 and then the sail a bomb
I'm so focused on these niggas and your hoes too
and real life it ain't just speaking it don't pro to
I'm from the side where you speakers looking stone full
and don't be looking at them hard if you don't know
dude

I'm fucking the city up verbal
a few some smoking them trees they got me eat urpal
hey and I got there what you need circus
so no proud to the bush curvance
hey that's the house that they cook working
if you ain't seen me then I've been working
I'm cushed out but I hit purple
and yeah I circle, yeah niggas been bitches
yeah I can vouch 'cause it's been witnessed
and you own you strip like a bitch business

I'm from the otherside of town
yeah, where them niggas begin money homie
ah, where my homies don't like nothing phone it
me and west the sound sudden done it yeah
I'm from the otherside of town
yeah, where them bitches been said, niggas what's up
ah, and little niggas where niggas up
I love it go and see baddest fuck, what?

I'm just pimping honey..rock been sipping
chump to see from my G's crippling
some niggas blust 'cause they wanna fit in
but I got love for a nigga get in
I ain't dare so I'ma get it till then
I'm from the side where is no snitchin

all cutlasses and no witless
I'm bout to relows but no empties
and this is south boy all fit in
and G you don't like the 070
push weight like we go Gimmy
that boy gaters unknown chemist
ice stole like swole me
I guess it in like a dope key
that's why the otherside know me
high states rile low key ain't burn us before
and middle finger to the police
and nigga you can check my back ground
my back pack full of mat round
ra, now how that sound gangsta

I'm from the otherside of town

I'm from the otherside of town
