Smile and wave lyrics
Huey ft durrough

aye i be VIP poppin everyday
cars lined up now we ride every ways
said id never make it out now im on this paper route
money over everything so tell me what you talkin bout

(oh hear ya boy)

just smile and wave x 8

ya boy used to ride through the city with his finger up
now that im blinging i like to ride with my pinky up
got that dessert on me case you think we aint deep
enough
all out the window hollarin homie what you think of us
naw we aint trippin homie everybody havin fun
gotta roll wit it though cause everybody havin a guns
just left the mall buyin everybody fresh kicks
hit the club on em told em put us on the guest list
trynna get a dealer she could hook up with a fresh
prince
she gon know im the boy when i come through that exit
? all on my stomache and my wrist watch
cars line up outside like a pit stop boy

aye i be VIP poppin everyday
cars lined up now we ride every ways
said id never make it out now im on this paper route
money over everything so tell me what you talkin bout

just smile and wave x 8

i got my loui v shades on feelin good
hangin out the sun roof i guess im getting my parade
on
i smile and wave like the president
the heated nina i stay present with squeeze it with no
hesitants
hard on the grind i dont know nobody else that is
niggas out here trynna shine i dont need nobody else

to tell me
what to do im fine i aint never been afraid of you
wanna hear it from my own mouth ill tell you

i made it out this city m o n e y
niggas out here sleeping like its gone ? free
and i still aint understanding why they hatin on me
its your boy dourrough for the record you should know

aye i be VIP poppin everyday
cars lined up now we ride every ways
said id never make it out now im on this paper route
money over everything so tell me what you talkin bout

just smile and wave x 8

Homegirl how you like my teeth
aint got to have a grill for me to floss all week
thats the reason that i smile and wave im proud to say
the bling in my mouth comes from using colgate
ridin in this old 8? full speed and no breaks
just set it on these wheels and i feel no shame
they said id never make it out and even though
i made it out i still have to question
what these other suckas hate about
nevermind the hater mouth talk about it later
they know they conversation aint talkin bout no paper
im rich cuz but i just smile and wave
while the record money comin out all kinds of ways

aye i be VIP poppin everyday
cars lined up now we ride every ways
said id never make it out now im on this paper route
money over everything so tell me what you talkin bout

just smile and wave x 8

aye i be VIP poppin everyday
cars lined up now we ride every ways
said id never make it out now im on this paper route
money over everything so tell me what you talkin bout

just smile and wave x 8
