### "Better Must Come"

Visit "[Better Must Come](#)" on [MotoLyrics.com](http://MotoLyrics.com)

Hey, to me is like a likkle bit a struggle  
With a whol lot a trouble  
But we must, must get over  
Must get over, yeah, yeah, yeah  
Oh Lord, natty must get over, now...

Better a go come I say - better must come  
Don't put you mind astray - it must come  
Work hard and pray  
Thank Jah for every day  
Better a go come I say - better must come  
Don't put you mind astray - it must come  
Work hard and pray  
Thank Jah for every day

Well, who is going give people what they want  
Woeful waste don't you know  
Dat bring woeful wants  
We need some balance  
The scale is so slant  
All some want is a chance  
All some need is a

Better a go come I say - better must come  
Don't put you mind astray - it must come  
Work hard and pray  
Thank Jah for every day  
Better a go come I say - better must come  
Never put you mind astray - it must come  
Work hard and pray  
Thank Jah for every day

You know why, you know why  
You pull your weight and I pull mine, oh, oh  
And everything will work out just fine  
Throughout condition, never sell your soul  
Insight you should keep your goal

Better a go come I say - better must come  
Don't put you mind astray - it must come  
Work hard and pray

Thank God for every day  
Better a go come I say - better must come  
Don't put you mind astray - it must come  
Work hard and pray  
Thank Jah for every day

Cast your bread upon da water  
Have little farth and thou shall prosper  
The fool greet distress and laughter  
And then regrets after, shuby duba dey, yeah  
Oh well, in a world of bare crisis  
Cannot control dem prices  
Everyone wants to be di chief  
Surrounded by cut throat and thief  
Shuby duba dey, oh yeah

Better a go come I say - better must come  
Don't put you mind astray - it must come  
Work hard and pray  
Man thank for one more day  
Better a go come I say - better must come  
Don't put you mind astray - it must come  
Work hard and pray  
Thank HIM for one more day

You pull your weight and I pull mine, oh, oh  
And everything will work out just fine  
Throughout condition, never sell your soul  
Insight you should keep all your goal

Better a go come I say - better must come  
Don't put you mind astray - it must come  
Work hard and pray
