Don't cry, don't cry  
Oh no, oh no

I never want to see you crying over me  
You know that's not the way that it's supposed to be  
Oh no, no no no no  
You got to be strong  
Never want to see you crying over me  
You know that's not the way that it's supposed to be  
Oh no, no no no no  
You gotta be strong, oh my love

I know I've hurt you more than once  
Treating your love like I don't response  
Time in deed, caught up on me  
Trapped in your tears  
Please set me free I plea  
Maybe I took this life for granted  
Making you feel like you're not wanted  
Ego got the best of me  
Chasing every beautiful woman I see  
In the end what's my reward  
I brought unhappiness in a mi yard, oh Lord

I never want to see you crying over me  
You know that's not the way that it's supposed to be  
Oh no, no no no no  
No no no no no no no  
I never want to see you crying over me  
You know that's not the way that it's supposed to be  
Oh no, no no no no  
Dry your weeping eyes, oh my love

And this may sound just like a drama  
Inside me there's constant fire  
Burning my soul, saying oh what a liar  
You've hurt me, so much time hurt her no longer  
But I am really a true believer in love  
Trying my best to make it work  
Show me a man who doesn't cheat  
Nor flirt in this world

Boys will be attracted to girls

I never want to see you crying over me  
You know that's not the way that it's supposed to be  
Oh no, no no no no  
Got to be strong  
I never want to see you crying over me  
You know that's not the way that it's supposed to be  
Oh no, no no no no  
No no no no no no no

I know that I've hurt you more than once  
Treating your love like I don't response  
Time in deed, caught up on me  
Trapped in your tears  
Please set me free I plea  
Maybe I took this love for granted  
Making you feel like you're not wanted  
Ego got the best of me  
Chasing every beautiful woman I see  
In the end what's my reward  
I brought unhappiness in a mi yard, oh Lord

I never want to see you crying over me  
You know that's not the way that it's supposed to be  
Oh no, no no no no  
Wipe your eyes  
I never want to see you crying over me  
You know that's not the way that it's supposed to be  
Oh no, no no no no  
You got to be strong
