

Like an angel from above (hey)
You can safely guard this heart of mine
My eyes are open, I'm no longer blind
How could love be so close
And I let it go (ohhhhhhhhh)
Girl I'm trying to do this by the book
Frankly speaking I have got no place else to look so...

[Chorus:]

IIIIIIIIII wanna say I love you girl
You make my world (yea oh)
Go up and down, round and round
IIIIIIIIII wanna say I love you girl (wanna say I love you)

[Verse 3:]

For all the little tings you do suddenly (hey)
Suddenly I won't forget (no)
Glad that day we met
So glad the day we met
As I reach how to touch you girl (uhh)
My heartbeat mi stay sleep
That's, that's, that's
That's when I knew
That's when I knew that your love I must get
So inviting, so perfect
I could not wait at all
Let me answer your every call
Don't wanna be left there all by myself
Lose this feeling to someone else
Oh nooo...
No nooo...

[Chorus:]

IIIIIIIIII wanna say I love you girl
You make my world (yeah)
Keep bouncin round and round
And IIIIIIIIIII
Wanna say I love you girl
You make my world (yeah)
Go round and roundd

[Verse 1:]

And I won't forget (no, noo)
So glad the day we met
Yea...
As I reach how to touch you girl (uhh)
My heart beat mi stay sleep (uuhhhh)
And then I knew that your love I must get
So inviting, so perfect
I could not wait at all
I wanna be there when you call

Don't wanna be left there all by myself
Or lose this feeling to someone else
Just you answer my call
If it take forever I am waiting
Girl I'm trying to do this by the book
Frankly speaking I've got no place else to look and...

[Chorus:]

IIIIIIIIII wanna say I love you girl
You make my world (yeah, yeah)
Go round and round you do (oh)
IIIIIIIIII wanna say I love you girl
Truly I dooooo (oh)
What else can I say to you

[Verse 2:]

All the things you told me (mmmmm)
Gentley she would hold me (yeah)
Always dispensing love (uhhh)
Like an angel from above (hey)
You can safely guard this heart of mine
My eyes are open, I'm no longer blind
How could love be so close
And I let it go (ohhhhhhhhh)
Girl I'm trying to do this by the book
Frankly speaking I have got no place else to look so...
