No, what a thing to say
You just said no

Here we are on the road
You didn't say anything nice
I stayed with you late last night

Though you said no
That's a hell of a thing to say
You oughta know
You told me where to go

I told her
She was young and bright
And definitely out of sight

But she said no
What a thing to say
She just said no

Put me right in my place
I was looking for a night of fun
You really had me on the run

But you said no
I couldn't believe my ears
When you said no

You told me some other night
You really a man uptight
I thought maybe that we might

But you said no
(Oh, no) oh, no
(Oh, no) oh, no
(Oh, no) oh, no

No, what a thing to say
She just said no

She threw me out in the road

I stayed with her late last night
She didn't say anything nice

Just said no
That's a hell of a thing to say
You just said no

She told me where to go
I told her she
Was young and bright
And definitely out of sight

But she said no (oh, no)
Oh, no (oh, no)
No, no, no (oh, no)

Yeah, you really let a man know
I was looking for a night of fun
You had me on the run

But you said no (oh, no)
That's a hell of a thing to say
(Oh, no)...
